"THE EVERGLADES NEWSPAPER" — WEEKLY

**\$2.00 A Year; \$2.50 After Oct. 1.**

W. B. Wheeler, who was captain of the Osceola while Co. 1ers Highway was building, passed through Canal Point last week. He said he had been at Fort Myers and was going to the east coast to look for a boating or dredge job.

In answer to a petition for the construction of a bridge across the Palm Beach canal in section 5, township 44, section 32, town ship 43, range 41 east, made through W. O. Boozer, attorney, was refused in view of the tremendous amount of work nec-

The board adjourned to meet again August 22.

The steamer will be 65 feet long, of 19 feet beam and will draw only twenty-one inches of water. It will have accommodations for 125 passengers and will be able to carry a considerable quantity of freight and a number of automobiles. Its hull will be of steel and will have eight watertight compartments and will be practically unsinkable.

J. H. Cason and Leo Maxwell have driven the round piles at the site of a Pelican Lake pump station north of the canal as the arrival of sheet piling which will abut them is expected a day. The Maxwell outfit will also drive the sheet piling with which a cofferdam will be made and which a P. & H. drag line that is on the site will dig out.

Conners  
Highway  
VIA  
CANAL POINT  
provides the shortest and most  
interesting trip across the Flor-  
peninsula.

Editor and Manager

### NOTE 'PRESENT VALUES.'

"Business Conditions Weekly," issued by the Alexander Hamilton Institute of New York in its current number, after referring to the "conditions" in Florida, particularly in the southern half, which "have continued during recent months with undiminished vigor," says: "Among the factors favorable to a continuation of expansion in the state is the influx of population. An increasing population in any state or region will tend to sustain business activity and cause real estate prices to advance. Large numbers of people, hearing of the prosperity of Florida, have gone there for work. A great many business men also are visiting the state in search of business opportunities and many are moving there."

A second factor favorable to a continuation of activity in Florida is the large volume of building permits issued in a current month cover work which will be done in the next six months, ensuring. A heavy building program is usually in answer to a definite demand and hence, as a rule, is an index of solid growth. A speculative overbuilding is possible at times but in a growing section population will catch up with the housing supply through a period of readjustment or rest may be necessary.

Other factors favorable to continued activity are the attractive climate which is drawing many people to the state, the absence of state income and inheritance taxes, the fertility of the soil, the wealth being brought there by people who means who have come to the state, and the investment made in the state by outside capital.

"Among the factors unfavorable to continued activity is the continued expansion in the tightening of money which has occurred in some parts of the state. A large building program and a heavy land turnover can only be financed if there is a plentiful supply of mortgage funds and ample bank credit. Mortgage funds are still generally available, though in the most active sections substantial premiums and bonuses are being asked on mortgage loans. Bank credit is still in good supply, but a wary feeling has been let loose. Banks through association connections not to extend credit recklessly or to a point from which an orderly retreat to a less extended position would be inevitable."

"The large amount of speculation in land is also unfavorable to maintenance of the present pace and to the orderly development of the state. Speculation attaches particularly to lands in which the turnover is very heavy without being accompanied by an equal volume of construction work. Florida's natural advantages probably insure that, in the long run, almost any of the current values will be justified."

### VEGETABLES IN DIET

The British nation is the worst fed nation in the world, and chemists have become the greatest slaves of mankind, Sir William Milligan, M. P., declared in opening a food exhibition at Manchester last week. The British diet, one of the most insufficient, ill balanced and monotonous he said, cooking left much to be desired and the scientific state of the nation was a grave disquisition. He stressed much of the dyspepsia, gastro-intestinal disease and intestinal lethargy to the tendency of people to live on preserved foods.

"Our chemists," he added, "have become, because of this tendency, in a sense almost the greatest slaves of mankind. Responding doubtless to a popular demand, they have worked at the discovery of food preservatives and these have been so largely used that, along with the results of cold storage, food became literally mummified."

### OKEELANTA ROAD

Consideration of the condition of the road from Okeelanta to Gladecester was brought before the board of county commissioners recently by Dr. Wills of Okeelanta, who stated that Okeelanta had been omitted from both recent issues for Everglades roads, one for \$350,000 and one for \$990,000, but that it was entitled to the expenditure of \$200,000 in the bank.

The county engineer was authorized and instructed to find and report to the board at the earliest possible moment the best means of utilizing the Gladecester-Okeelanta road of approximately \$200,000 so as to make the road from Okeelanta to the Hillsboro bridge passable and in good condition.

### WATER CONDITIONS

Rainfall was by no means uniform around Lake Okeechobee in the seven months from January 1 to the end of July. At Canal Point it amounted to practically 40 inches, at Moore Haven to 29.67 inches and at Okeechobee to 28.66. A letter from George E. Todder, foreman of Everglades experiment station three miles down Hillsboro canal from Belle Glade reports the rainfall at that place in the past seven months as 32.77, which, next to Canal Point, is more than at any other point around the lake.

A composite average of four stations around the lake is 33 inches of rainfall since January 1. Forty-eighths of an inch usually taken as normal or average rainfall for the full year in the lake region. On this basis, 15 inches of rain may be expected to fall between now and the end of the year.

The Everglades News believes that with careful attention to the control of water at the spillways and proper progress in construction of works in sub districts, harmful effects of even a greater amount of rainfall can be avoided and the surplus water handled.

### OUR DEPENDENT SITUATION

Pleasant living conditions can be produced easily and quickly on farms in the Everglades by the use of the many "home outfits" that are sold at relatively low prices. A family can make a good living on ten acres of land if the land is handled intelligently and the owner is industrious, and some money can be banked every year. But the land must have a road to it if this is to be done.

With a Fairbanks-Morse engine and a Mengers pump, the small land owner can take care of drainage; he can get electric light and power and a water supply from a home-outfit, and with a Kelvinator he can get a refrigerator system that is as good as daily ice delivery. These are individual affairs and within the control of the small farmer. But roads are public affairs; as to roads the small farmer is not sufficient unto himself; to get a means of going to and from his home he must act with others and others must act with him.

Control of road affairs is in the hands of the board of county commissioners at West Palm Beach. The chairman of the board is Joseph E. Bell of West Palm Beach; other members of the board are B. E. Raderon of Boca Raton, Thomas Dempsey of Jupiter, and C. W. Bell of Belle Glade. There is no road to his land at Bacon Point, spends much of his time out of his district.

Much of the land in the Everglades is owned in large blocks by non-residents who have large interests somewhere else than they have in the Everglades and who are giving no attention to their other interests than to their interests in the Everglades.

We who live here in the Everglades and have a stake in our interests here do not like the situation in any of its parts. We are tired of the absentee-landlord system and the control of road and drainage by non-residents. The Everglades News states its own policy, and the policy of the great majority of others who are in its situation when it declares that, unless we as we desire, a fight will be kept up until the situation is changed.

### IN LIEU OF GOLF

The Editor's Own Column

Raising of vegetables will long be the chief business on the eastern and southern shores of Lake Okeechobee because the temperature of the lake water makes it possible to grow winter produce that commands a high price at that season. Next to that will be the raising of tropical fruits, like the avocado. Land further back will be devoted to dairying and chicken raising. Now, trucking and dairying and care of fruit trees and chickens are businesses that call for intelligence and every member of the family has a part in it and must know something about it. A corporation of Yankee capitalists can take a big job of land and hire experts and supervisors and get a lot of negroes and machinery and run some kinds of agricultural enterprises, but it is doubtful if it can produce green beans as well as can a Cracker family, and it is pretty certain it can't treat a case of pip as well as can a housewife who was raised on a farm and likes chickens anyway. Moreover and also it is not an ideal social system where production is by hired hands.

The home is the social unit; systems of production that split up the family, break up the family and are bad. Systems of production that have the family together are good. Under one method of using the land this country won't be fit for a white family to live in; under another method—under another system of production—this can be the best country in the world in a moral as well as in an economic sense. It will be good if the land is used in small tracts, in families of owners for the purposes to which it is best adapted.

The boys and girls have got to be held on the farms if this country is to amount to anything, and they cannot be held on the farms if there is not proper community and opportunity for the exercise of natural and legitimate youthful desires and impulses. Right now there are mothers who are distressed because their sons and daughters have left home and gone to towns on the east coast. Homes have literally been broken up because the children could not be held at home. The economic and spiritual wealth there is in youth flows away from here. It goes where there is light and music and a companionship. But the what it goes for—not that there isn't profitable work for the young people here on East Beach.

There aren't enough people on East Beach to provide enough patrons for an electric light plant; the moving picture house at Ft. Holmes closed down because the "home outfit" lighting plant went on the blink. Dances are frowned on here, so the young people go to the coast and dance. High school pupils go to school elsewhere. Their fathers and mothers may be used to primitive sanitary methods but the young people prefer something better.

We cannot develop the proper agricultural methods here if we don't have the aid of the young people. We must have their labor and their intelligence and enthusiasm. Negroes and tractors won't take their place. It's a dollar and cents proposition. I tell you, for you can't get 4 per cent interest on \$400 land unless the land is put to proper uses, much less \$600 or \$800 valuations. The creation of attractive social life is dependent on the providing of public utilities. For the sake of the women and children there ought to be water systems, sewer systems, good roads and streets, the phones, moving picture houses and bathing places as well as churches and schools.

The new county of Indian River, with Vero as the county seat, has assumed 49 per cent of the bonded indebtedness of St. Lucie county, of which it was formerly a part. The amount is \$800,000. Martin county, which got a part of St. Lucie county, assumes 2.4 per cent of the general indebtedness and gets \$1,020 in lieu of a share of the county road equipment.

### THE FOOLKILLER

When the foolkiller takes a vacation his business is bound to thrive. For many are killed in this nation because they so carelessly drive.

We should think they would learn by observing. The dangers in driving so fast. But when they see others overturning they heed not, but step on the gas.

Some foolkiller's business is thriving. For when one will fall out by the way another continues his driving. Till he comes to his end-ending day.

—FRANK FRIEND.

### USE OF SUGAR GROWING

WASHINGTON, July 29.—Life is sweet and growing sweeter. Humanity inclines to greater indulgence in sugar. People of the United States have just been reminded of their insatiable craving for the commodity by the action of the president in refusing to lower, under the flexible provision of the tariff law, import duties on the commodity.

World production of sugar in the 1923-24 season was 21,034,401 short tons, the greatest on record and double the output of three years ago.

In the United States the yield in 1924, on account of the scant harvest of sugar beets, was low, only 382,585 tons, but the quantity in 1923 was more than 881,000 tons, and in 1921, the greatest year, 1,348,189 tons.

To protect the industry and to encourage its further development, particularly in respect to cultivation and treatment of sugar beets, was one of the reasons the president gave for refusing to decrease the tariff.

With imports from foreign countries.

Australians are the heaviest consumers of sugar, averaging 12 pounds per capita per annum. The United States is second in consumption. In 1924, according to estimates, the use of sugar was less than 6,000,000 tons was an average of about 105 pounds per capita. As the average individual weight of Americans is figured at 151 pounds, they are fast approaching the point of eating their weight in sugar every year.

Use of sugar as an ordinary food is of comparatively recent origin.

Sugar cane, not mentioned in any books of the Old Testament, is recorded in Chinese writings as a product of India. The record is bolstered for its truth by the fact that it was not made to yield solid sugar until about 500 B. C., and this development is credited to Egypt.

For centuries solid sugar served as a medicine—perhaps to sweeten the bitter extracts of herbs—rather than as a food. Its consequences limited its use to rich Asiatics. It virtually was unknown to Greeks and Romans, who, like the ancient Hebrews, satisfied their taste for sweetness with honey.

With the sword and the faith of the prophet, Arabs carried sugar to Spain, and afterward crusaders, returning from the Holy Land, brought quantities of the sweetened delicacy to Italy, France and England.

Sugar cane and the sugar industry were introduced into the New World by Spain.

### NOTICE OF APPLICATION FOR TAX DEED

Under section 777 of the Revised General Statutes of Florida, Notice is hereby given that Alfred Peterson, purchaser of Tax Certificate No. 3560, dated the 3rd day of July, A. D. 1925, has filed said certificate in my office and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property, situated in Palm Beach County, Florida, to-wit: Lot 10 block 420 Town of Lake Worth. The said land being assessed at the date of the issuance of such certificate in the name of John B. Davis. Unless said certificate shall be redeemed according to law, Tax Deed will issue thereon on the 31st day of August, A. D. 1925.

Witness my official signature and seal this 18th day of July, A. D. 1925.  
(Seal) FRED E. FENNO,  
Clerk Circuit Court, Palm Beach County, Florida.

### NOTICE OF APPLICATION FOR TAX DEED

Under Section 777 of the Revised General Statutes of Florida, Notice is hereby given that L. H. Johnson, purchaser of Tax Certificate No. 3561, dated the 2nd day of August, A. D. 1925, has filed said certificate in my office and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property, situated in Palm Beach County, Florida, to-wit: Block 153, Lake Worth. The said land being assessed at the date of the issuance of such certificate in the name of Matthew Hayes. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 7th day of September, A. D. 1925.

Witness my official signature and seal this 25th day of July, A. D. 1925.  
(Seal) FRED E. FENNO,  
Clerk Circuit Court, Palm Beach County, Florida.

First publication July 31, 1925; last publication September 4, 1925.

### NOTICE OF APPLICATION FOR TAX DEED

Under Section 777 of the Revised General Statutes of Florida, Notice is hereby given that L. H. Johnson, purchaser of Tax Certificate No. 3562, dated the 5th day of August, A. D. 1925, has filed said certificate in my office and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property, situated in Palm Beach County, Florida, to-wit: Lot 12 block 201, Lake Worth. The said land being assessed at the date of the issuance of such certificate in the name of C. C. Fischer. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 7th day of September, A. D. 1925.

Witness my official signature and seal this 25th day of July, A. D. 1925.  
(Seal) FRED E. FENNO,  
Clerk Circuit Court, Palm Beach County, Florida.

First publication July 31, 1925; last publication September 4, 1925.

### NOTICE OF APPLICATION FOR TAX DEED

Under Section 777 of the Revised General Statutes of Florida, Notice is hereby given that L. H. Johnson, purchaser of Tax Certificate No. 3563, dated the 5th day of August, A. D. 1925, has filed said certificate in my office and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property, situated in Palm Beach County, Florida, to-wit: Lot 5, block 160, Lake Worth. The said land being assessed at the date of the issuance of such certificate in the name of Geo. L. Alexander. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 7th day of September, A. D. 1925.

Witness my official signature and seal this 25th day of July, A. D. 1925.  
(Seal) FRED E. FENNO,  
Clerk Circuit Court, Palm Beach County, Florida.

### NOTICE OF APPLICATION FOR TAX DEED

Under Section 777 of the Revised General Statutes of Florida, Notice is hereby given that L. H. Johnson, purchaser of Tax Certificate No. 3564, dated the 2nd day of July, A. D. 1925, has filed said certificate in my office and has made application for Tax Deed to issue in accordance with law. Said certificate embraces the following described property, situated in Palm Beach County, Florida, to-wit: Lot 4, block 189, Lake Worth. The said land being assessed at the date of the issuance of such certificate in the name of Geo. S. Long. Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 7th day of September, A. D. 1925.

Witness my official signature and seal this 25th day of July, A. D. 1925.  
(Seal) FRED E. FENNO,  
Clerk Circuit Court, Palm Beach County, Florida.

First publication July 31, 1925; last publication September 4, 1925.

## CLEWISTON

\$900,000 Bond Election, Recently Carried to Complete this Hard-Surfaced Cross-State Highway Between West Palm Beach and Fort Myers

A city plan covering 2,800 acres completely worked out by John Nolen, eminent city planner of Cambridge, Mass., having two miles of lake frontage; business area, civic center, industrial section, parks, boulevards, residential areas and the entire planned city properly zoned.

Lake front lots, business lots, residential, industrial, small farms of Custard Apple land. Adjoining this acreage to the west is the Henry Ford Development. Elliott and Harman Engineering Company of Memphis, Tenn., say: "The surveys and engineering plans for the Clewiston, Florida, townsite are well advanced and include plans for filtered water supply from Lake Okeechobee, electric light plant, pavements, sidewalks and bath with bathing beaches and boat harbors. The Sugar Land Drainage District surrounding the townsite with contract let for complete drainage and water control, assures a large agricultural development and tributary population." First Offering of Lots in Clewiston—Lake Front Lots, Residence and Business Lots. Terms: 25 per cent cash, balance 2 per cent a month; deferred payments 6 per cent interest. Agents wanted, Green & Grimes, exclusive agents for Palm Beach county, 10 Flagler Drive (El Verano Hotel), West Palm Beach, Florida.

PHONE 1378

## GOSSIP

The real measure of a town what the residents think of and little things like this transaction in a barber shop out show that the residents are beginning to think more of Cape Point, thinking better of it and planning their own permanent relationships to it. This attitude is reflected in the building of better dwelling houses for farmers, most of whom have been just camping out. Mr. W. Adams is a good barber—exceptionally good barber—known all over the town. He asks, "Is there a barber here?" everybody says, "Yes, and a good one, too." This is the spirit that is needed in all the Glades towns.

He is a small town tailor who takes his vacation in Jerka. When this become dull in his place of business he locks up the store and leaves the whole town without saying anything anybody about it. Being told by friend that he should have some cause to give to his customers when he takes impromptu vacations, he prices a large sign which at frequent intervals he places upon the front of his business place, bearing this legend: "This shop is temporarily closed. Am sick, out of town, attending a funeral or fishing."—National Republic.

2. Constructing reinforced concrete bridge double leaf bascule draw crossing on the Dixie Highway over the Loxahatchee river at Juniper on east side of present railroad bridge. \$120,000.00.

3. Construction of a bridge over the Loxahatchee river on the Dixie Highway.

## PAHOKEE

Pahokee, June 2, 1925.

We want a hard surface road from Canal Point to Bacom Point right away.

A. KALTENBRUNER.

### PAHOKEE

W. N. LeMaster of Mayville, Ga., and Charlie Barfield of West Palm Beach, spent a few hours here Sunday.

Mr. and Mrs. Savage of West Palm Beach were out here Tuesday in interest of the schools on East Beach. They were dinner guests of Mr. and Mrs. Ira York.

Lewis Hodge and family have moved to Sharon's place. The new home of Tom Shepard is near completion.

Rev. Earl Lewis of Plant City will preach at Baptist church Sunday morning and evening. Everybody cordially invited. Members are urged to be present.

Mr. and Mrs. Bartley of Birmingham have purchased 20 acres of much land and a ridge lot through W. O. Tiffin.

### BIRTHDAY PARTY

A party was given at the home of Mrs. C. A. Shive Monday, August 3, celebrating the sixth birthday of little Geraldine Shive. Miss Lillian Shive and her sister, Mrs. Carpenter, entertained. Indoor and outdoor games were played.

Refreshments consisted of home-made fudge, lemonade and cake. Twenty-five little tots were present. All seemed to have had a good time. Many nice gifts were received.

### BIRTHDAY PARTY

Little Miss Alice Padgett celebrated her eighth birthday Saturday afternoon by giving a party to a number of her little friends. Miss Alice Maxwell and Dennis Elliott assisted in entertaining. After a number of games, cake and cream were served.

C. W. Taylor of Plant City, is visiting his uncle, C. L. Wilder and family at Pahokee.

Mrs. Sallie Dancy and T. S. Spooner and children and Wallace Spooner left Tuesday for a visit in Donaldsonville, Ga.

Otis Taylor and Joe Odum of Donaldsonville, Ga., have come to reside here.

C. Eugene Smith of Moore Haven was here in interest of Kilgore Seed Company.

Mr. and Mrs. B. J. Boyd and daughter, Hazel, returned from a visit in Vero, Fla.

Mr. and Mrs. Thomas Hunter returned Tuesday from a month's visit in Fort Lauderdale.

Misses Lola and Lorraine Elliott left Monday for a visit in Bradenton.

Messrs. Jeff and John Golden of Thomasville, Ga., visited their sister, Mrs. D. S. Spooner.

Clevo Cranford has purchased a Dodge sedan.

Mr. Frank and family have moved into their beautiful home which has just been completed.

S. B. McClure is building a nice home on his lots south of Pahokee.

Mr. and Mrs. C. L. Wilder and family and Miss Juanita Parker motored to Miami Beach Thursday.

Among those going to the ocean beach Thursday were C. A. Shive and family, Ira Shive and family, J. B. Elliott and family and Mrs. Padgett and family.

Mrs. A. J. Hughes and Mrs. W. H. Vane and little son, Gordon, returned from several week's visit in Georgia, Tennessee and north Florida.

Rev. F. E. Tiffin and W. O. Tiffin and their families returned Saturday from a trip in the mountains of north Alabama.

Father and Mother Tiffin and Miss Venie Mae Tiffin joined them at Gainesville, Fla., on their return.

We are glad to see so many of our people returning. We who have not been able to go away for a vacation are not sorry when those returning tell us how hot the weather has been

where they visited. We enjoy the cool breezes of old Lake Okechobee.

Miss Juanita Parker, who has been visiting her aunt, Mrs. C. L. Wilder and family, returned to Lakeland Wednesday. C. L. Wilder and daughter, Park, accompanied her in his car.

Rev. A. J. York, who left in May for Cloverland, Washington, has had a trip in Nevada and is at present in Portland, Oregon. He writes the temperature was 106 Sunday. He expects to be home the middle of September. He is 83 years old.

The city council will receive bids August 18 for the sale of \$10,000 of time warrants.

Bids for the construction of the new high school building will be received September 7 by the county board of public instruction.

Teachers' examinations will be held August 20 to 22 by W. R. Terrell, the county superintendent.

The crate tomato market was the noisiest in years with the growers not getting fertilizer costs in a great many instances.

A few made a lot of money, but it is doubtful if the whole district will average \$75 an acre.

Last year South Jersey shipped close to 1,000 cars of early tomatoes, while this year it is doubtful if it will exceed 200.

Last year Swedesboro alone shipped more than 333,000 crates of tomatoes while this year it will not exceed 100,000.

Poor quality and poor packing helped to kill the market for New Jersey tomatoes. Tomatoes have run small this year, and the very high prices in the early part of the season tempted the growers to pick the tomatoes too green for the New York and other nearby markets.

The South Jersey crop came too late and it ran into the tomatoes from the Key Port section. Usually, if the South Jersey grower does not get his tomato profits by July 23, there is practically no chance to get it afterwards.

At the meeting of the school board Saturday at West Palm Beach the trustees of the Lake Worth school were authorized to go ahead with their plans for building an addition to the sixth grade building and for making repairs on other buildings.

Miss Elizabeth Howell has been appointed county school nurse.

Trustees of Delray were authorized by the board to advertise for bids to restore the old school building, thus making it uniform with the new one. The Pahokee school will have a new roof. The work will be done by James Maxwell.

The Everglades schools will open August 31, three weeks in advance of the opening of other county schools. This will release some of the children who will pick spring vegetables.

At the meeting of the school board Saturday at West Palm Beach the trustees of the Lake Worth school were authorized to go ahead with their plans for building an addition to the sixth grade building and for making repairs on other buildings.

Miss Elizabeth Howell has been appointed county school nurse.

Trustees of Delray were authorized by the board to advertise for bids to restore the old school building, thus making it uniform with the new one. The Pahokee school will have a new roof. The work will be done by James Maxwell.

The Everglades schools will open August 31, three weeks in advance of the opening of other county schools. This will release some of the children who will pick spring vegetables.

lets east of the Bank of Okechobee building on South Park street.

W. G. Stovall, Abe Freeman and L. A. Hough have been appointed by the Exchange Club as a committee to welcome W. J. Connors, who has been in Europe and who is expected to return this month to his home in this city.

The Florida East Coast Railway Company has been asked to construct four crossings over its right of way in East Okechobee.

Don Stewart has been elected to serve on the night police force.

Jeanette Ewry is suing her husband, Charles Ewry, a non-resident, for divorce.

The city council will receive bids August 18 for the sale of \$10,000 of time warrants.

Bids for the construction of the new high school building will be received September 7 by the county board of public instruction.

Teachers' examinations will be held August 20 to 22 by W. R. Terrell, the county superintendent.

The crate tomato market was the noisiest in years with the growers not getting fertilizer costs in a great many instances.

A few made a lot of money, but it is doubtful if the whole district will average \$75 an acre.

Last year South Jersey shipped close to 1,000 cars of early tomatoes, while this year it is doubtful if it will exceed 200.

Last year Swedesboro alone shipped more than 333,000 crates of tomatoes while this year it will not exceed 100,000.

Poor quality and poor packing helped to kill the market for New Jersey tomatoes. Tomatoes have run small this year, and the very high prices in the early part of the season tempted the growers to pick the tomatoes too green for the New York and other nearby markets.

The South Jersey crop came too late and it ran into the tomatoes from the Key Port section. Usually, if the South Jersey grower does not get his tomato profits by July 23, there is practically no chance to get it afterwards.

## HOW ELECTION ON INCORPORATION IS TO BE CONDUCTED

Law Gives Full Authority to Committee of Five Members

## CAN ACT ANY TIME ON 30 DAYS NOTICE

Governing Body to Consist of Mayor, Vice and Town Clerk

An "organization committee" of five persons is named in a special act of the legislature which gives authority for the incorporation of the "Town of Canal Point" if a majority of the voters in a special election favor incorporation. The members of the organization committee are C. R. Brigham, W. A. Adams, A. E. Sasser, O. P. Griffin and Mrs. Jack Barrett. In case of death, disability, resignation, removal or recall of any member of the committee, the vacancy so caused shall be filled by the remaining members of the committee.

The law says: "The said organization committee shall have all of the powers, duties and responsibilities of a board of county commissioners in regard to the calling and holding of an election and shall canvass and declare the result."

This is the way the committee can go about calling an election: Publish or post a notice stating the office to be filled and giving the names of three inspectors and a clerk appointed by the committee. Thirty days is allowed for giving notice of the election.

Any person residing in the limits of the proposed town who was registered on the county books when the law went into effect can vote, regardless of whether poll tax was paid. It does not make any difference whether he is a property owner.

No caucus or primary is needed to select candidates. The officials to be elected will be a mayor, a vice mayor and a town clerk, who will constitute the town's commissioners or governing body. The mayor will hold office for one year, the vice mayor for two years, and the clerk for three years.

The commissioners must be qualified electors and freeholders in the town.

The area that will be incorporated if the election is favorable to incorporation spans the line between section 4 and section 33 on the south and extends three miles north, to the north line of section 23. It takes in half of fractional section 22 and all of fractional sections 27 and 33 and parts of sections 26 and 34.

The law does not say exactly when an election shall be held. It merely says "as soon as practicable after this act shall take effect." The act is now in effect, having been signed by Governor May. Immediately after the adjournment of the legislature.

## M. C. CHURCH NEWS

The Spirit is working in our revival meetings and we are being blessed. We have testimonies that those who profess Christ have been greatly helped.

Some of those who do not profess to be Christians are under conviction, we believe, and a few have been converted already. The fire of the Holy Spirit may descend at any time, so we have decided to continue the revival through next week.

Meetings will be held at 9:30 every morning except Saturday and every evening except Saturday at 7:30.

Sunday school at 10 a. m. G. W. Snyder, superintendent.

Preaching at 11 a. m. and 7:30 p. m. on Sunday. Dr. Carr will preach on Sunday night from the subject, "The Kingdom of Heaven on Earth a Scientific Fact." Hear this sermon by all means, for it is a rare opportunity.

He who is progressive will be helped both spiritually and intellectually. Come and bring your children.

Wm. Jesse Thomas, Pastor.

## CANAL POINT

Miss Mary B. Staley and Miss Adelaide Cooper of Chicago, both of whom have bought lots in Pioneer Investment Company subdivision, came out from Lake Worth Monday with Mr. and Mrs. W. R. Bonham.

Jim Bacon and J. L. Strickland of Riviera stopped in Canal Point Saturday on their way home from a visit to Okeechobee.

There was the usual Sunday traffic on Conners Highway made up largely of persons who bought lots in Okeechobee and Okeechobee Shores and were out to ask if real estate is increasing in price.

A concrete mixer was brought in Monday from the east coast, presumably to use when sidewalks are made in Pioneer Investment Company subdivision.

The original grade stakes having been knocked down by roaming cattle, surveyors came out Monday to place more substantial markers.

The canal was at elevation 16.8 Tuesday morning, having gone down one-tenth of a foot in the preceding 24 hours. The lake was still at 15.3 feet.

J. P. Carter and family are expected to return home this week from a stay on the west coast and a visit to points in Georgia.

G. A. Watkins left Tuesday for Orlando, where he bought a tract of lake front land a few weeks ago. He will have the lake and cleared S. W. Powell drove Mr. Watkins' car on the trip.

Henry Bass, owner of the lumber yard, was down from Okeechobee Sunday to confer with his local manager, Mr. Davis.

The office of the East Beach Land Company in Canal Point has been closed as the furniture was moved to West Palm Beach Monday. C. R. Brigham has rented the rooms formerly occupied by the real estate office. Homer Arvin and J. P. Watkins will maintain an office in West Palm Beach.

## CAR LOAD OF LUMBER

Stanley J. Thibodeaux unloaded a car of timbers and lumber this week. The timbers to be used in moving the Custard Apple Inn and the other material for other jobs.

## Georgians Buy Lots On Conners Highway

S. P. Rice of Scott, Ga., bought on Monday two lots on Conners Highway in Pioneer Investment Company section of Canal Point.

With his son he was touring Florida, having come down the east coast, making side-trips to such places as had connection with Dixie Highway. They planned to cross to the west coast, which brought them to Canal Point. A pause here to get lunch gave them time to look the town over and read a copy of The Everglades News, with the result that after meeting several former residents of Georgia they went to the office of the Everglades Realty Company and selected two lots for purchase as investment. They made an offer through J. P. Poland for the Shive property in Pahokee but no binder was paid, as Mr. Shive was out of town.

The people of Canal Point and Pahokee should capitalize the fishing and hunting resources of this region. Mr. Rice said, acknowledging, however, that this could not be done until there was a large modern hotel, electric lights and water works and sewage system and plenty of guides and boatmen. He will get a handle on his lot as soon as the growth of the town warrants.

Mr. Rice is a plantation owner and turpentine operator.

## BASS FISHING ON LAKE OKEECHOBEE

Bass fishing in Lake Okeechobee is being widely advertised in illustrated articles that are printed in newspapers all over the United States, creating the prospect that many tourists will visit towns in the lake region and expect to find good hotels, accommodations and guides and boats.

One of the late articles in the series descriptive of South Florida shows a picture of Miss Essie Evans of Okeechobee holding an 18-pound bass in her hands, with the explanation that this is "one of a dozen big bass caught by her in a half hour's fishing in Lake Okeechobee." Another picture is labeled: "Mrs. L. E. Miller and her big string caught in one half hour."

The article mentions Fort Myers and Fort Lauderdale as being entry points to the Lake Okeechobee country, so evidently the publicity does not emanate from West Palm Beach.

There is nothing to show the origin or inspiration of the article descriptive of Lake Okeechobee that are being printed. It is clear, however, that the series comes from a good press agency, for they are handled well in all particulars.

## CONNERS FOUNDATION

A two-column article about W. J. Conners and his charity foundation was printed in the Sunday edition of the Miami Herald. Quotations were made in the article from the New York World and the New York Times. The purpose of the fund of \$1,000,000 is said to be to give help to "the needy, without red tape and without regard to race, religion or anything but need."

## FOURTEEN DREDGES? TALLAHASSEE, Aug. 10.

Drainage work throughout the state is progressing rapidly, with fourteen dredges in operation, according to Fred C. B. Hiet, chief engineer of the state.

drainage board, and inland waterways of Florida are gradually being improved and deepened.

## RAINS GENERAL IN ALL LAKE REGION

Rains in the past ten days, general in the Lake Okeechobee region, supplemented by rains on the east coast and west coast, raised Lake Okeechobee two-tenths of a foot and all of the canals in the district even more and made a condition of water levels that retards farming operations and unsettles all plans. Canals started going down the middle of the present week, however, and unless rains continue no great hurt will be done.

W. C. Hooker had begun transplanting peppers and eggplants on his land near Clewiston but the plants were drowned by rains that fell Tuesday and Wednesday. Hillsboro went to such high level that Brown Company operations were shut down. The road between Clewiston and Moore Haven was put under water for a few days. Water ran from West Palm Beach canal through lateral ditches on to farm land.

With Lake Okeechobee at the highest level ever known at this time of year and canal discharges abnormally low, pumping systems in sub districts and individual plant are looked to as the means of keeping land dry enough for farming operations this fall.

## District Boundary And Extra Session

This paragraph is printed in the Tampa Daily Times August 10 in a collection of items from Tallahassee:

"The members of the governor's cabinet are looking forward to the trip through the Everglades. F. C. Elliot, chief drainage engineer of the Everglades drainage district, will direct the tour. Gossip has it that the tour may have something to do about the bringing up the question of increasing the size of the district at the extra session of the legislature in October, in order that credit of the district may be improved and drainage be completed more advantageously."

## MARTIN COUNTY

Four Stuart boys who attended the citizens training camp at Anniston, Ala.—Sammy Lane, John Chumlea, Stanley Lambertson and Fred Walton—members of the Stuart Boy Scouts, won medals for good marksmanship.

The Union Bridge Company has finished putting in a bridge at Stuart for the F. E. C. railroad and the crew and equipment have been moved to Sebastian.

Captain Henry E. Sewall, pioneer resident for whom Sewall's Point and Fort Sewall were named, died August 1 at Daytona. Death was due to acute indigestion. He was 77 years old.

Stuart has abandoned the old councilmanic form of city government and adopted the commission-manager form. John E. Taylor is mayor.

Construction of an apartment house of 54 four-room apartments has started at Stuart.

H. N. Gaines, who was county commissioner on the Palm Beach county board, was elected chairman of the Martin county board. The other members are Fred Powell from Olympia, W. B. Tilton of Jensen, Carroll Dunscombe of Stuart and Howard Eells of Indian town.

## STATE GENERAL

Leesburg has offered to give a site to anyone who will build a modern hotel.

The Hillsborough county budget was reduced \$360,000 as a result of higher assessment of real estate.

Two hundred and fifty railroad conductors visited the state last week and were entertained at many of the leading cities.

The cheap gasoline league of Bradenton fought it out with Commissioner Nathan Mayo and won its right to sell the gas it bought from a Louisiana refinery.

Non-residents are to be charged \$5 for fishing license, good all over the state. The blanks have been sent out from Tallahassee to the county judges, who issue the licenses.

One hundred and five thousand dollars has been raised at Sanford for an advertising campaign. At Plant City an advertising fund will be created by a small tax levy.

ing was held at Orlando this week to organize an advertising campaign for central Florida.

## GLADES COUNTY

(Compiled from The Democrat)

At the first meeting of the Moore Haven town council since the election on the adoption of a new charter, President Vorhees moved that the council declare the election void and that no commission had been elected. A councilman seconded the motion but later withdrew his second and the motion was dropped. The council then adjourned, the councilmanic form of municipal government in Moore Haven having ceased.

G. J. L. Smith and C. Eugene Smith being present and constituted a quorum, the former was elected mayor. R. E. Kurtz was elected city manager with understanding that this election was only for the purpose of handling tax matters and for that period only. All of the present town employees were retained.

T. L. Chaplin, who owns land at Okeehobee, Pahokee and Moore Haven, has made a purchase of acreage at Citrus Center. His northern home is in Chicago.

Because fuel oil is much cheaper than gasoline—and is burned in Diesel-type engines, the board of county commissioners insisted that the Northwestern dragline machine they bought be equipped with Diesel engine. To get this, however, they had to take a three-quarter yard machine instead of a yard capacity machine.

N. F. Stone is to remodel the stucco it and convert it into a modern hotel of 70 rooms, all with connecting baths. An elevator will be installed. The building is near the site of the new court house.

While Glenn Smith was trying out a new Flint car on the La-Belle road a buzzard flew into the windshield, broke the glass and the glass cut Mr. Smith's face.

Carr Settle is the inspector for Everglades district on the

dredge Sarasota, which is working in Caloosahatchee.

Mr. and Mrs. G. P. Harben have returned from a vacation visit to North Carolina.

U. G. Hedges is suing Hettie Hedges for divorce.

## MOORE HAVEN

All of the officers of the Lanchester Club were re-elected for the new term: R. B. Child, president; R. C. Sligh, vice president; Dr. P. H. Jones, secretary; C. Eugene Smith, treasurer.

The store room formerly occupied by J. E. Smith is being fitted up as the office of the Glades Loan and Investment Company, which will move from the rooms in the bank block where the abstract company, of the same ownership, has an office.

C. L. Williams and family left last week for a visit to Miltonville, Kansas, their old home. They may go to Devel, Colo., for a vacation trip. Mr. and Mrs. Glenn Williams have gone to Asheville, N. C., having joined Mr. and Mrs. Galyean at Plant City.

M. D. Johnson, formerly of Everglades, Collier county, has opened a restaurant in Moore Haven.

A new copper wire has been put in for the Western Union Telegraph Company between Tampa and Moore Haven and improvement in service is expected in consequence.

## PALM BEACH COUNTY

A. H. Grady, E. G. Barrow and K. R. Chestnut, who were with Butler, Barnett & Taylor, have joined the East Coast Engineering Company at Delray.

The Woman's Club at Boynton is collecting funds to pay the cost of putting a life line at Boynton Beach for the greater safety of surf bathers.

Rev. Smith Hardin, superintendent of the Methodist orphanage at Enterprise, canvassed the county last week for funds for an addition to the orphanage.

Addison Mizner was re-elected president of the Mizner Development Company and his brother, Wilson Mizner, secretary. At the annual meetings of the stockholders held at West Palm Beach last week, Anderson T. Heard of New York city was continued as vice president and general manager. The meeting was presided over by Congressman George S. Graham of Philadelphia and Mr. Mizner's administration was commended by United States Senator Coleman Dupont. Ten million dollars worth of property was reported to have been sold from May 18 to date, or more than \$1,000,000 of sales.

There is no yellow fever in Palm Beach county and all of the drinking water is pure. This official assurance is given in combat reports to the contrary that are said to be in circulation in the north.

John T. Williams, of Boynton, has been named county commissioner for district No. 3 of Palm Beach county. This district takes in territory between West Palm Beach and Delray. It was made by rearrangement of districts after the resignation of H. N. Gaines of Stuart, whose territory is now embraced in Martin county.

Dispute between officials as to the disposition of confiscated liquor led to the arrest of Night Marshal Charles Tedder of Riviera by Sheriff R. C. Baker. Tedder had seized a rum boat and is alleged to have been preparing to sell it to another bootlegger.

The candidates of the "Peo-

ples party" for commissioners of Lake Worth under the new charter were elected Monday by the following votes: A. D. Clark, mayor, 464; W. A. Boutwell, vice mayor, 491; E. F. Aitken, finance commissioner, 465; W. E. Hutchenreuter, 496; Ben Miller, 460. The candidates are: J. J. Ohlfest, who received 392 votes; Earl E. Menges, 364; R. T. Bevington, 373; E. E. Green, 374; Fred M. Burbach, 354.

Messrs. Clark, Boutwell and Hutchenreuter are the present commissioners and were re-elected.

## SOUTH FLORIDA

A Presbyterian church has been organized at Avon Park. Free mail delivery will be inaugurated in Wauchula November 1.

Monroe county commissioners are to call a special session September 15 for a road to the mainland from Key West.

The Bradenton council has accepted the bid of the American Gas Construction Company to put in a municipal plant for \$99,950.

County forces and equipment will be used in building 10 miles of back country roads in St. Lucie county, instead of letting contracts.

One thousand teachers in public schools of Dade, Broward and Palm Beach counties are expected to attend a four-day session of the institute, starting September 21.

The old DeSoto county jail, which was the place of confinement of prisoners from what is now five counties, is being torn down so the court house will be the only building in the block.

The world did not come to an end when higher valuations of real estate were made by county assessors on Governor Martin's order. In Lee county the tin's orders. In Lee county the only result was to bring about a 10 per cent reduction in the millage.

Price of milk has been raised at Fort Lauderdale. From 18 cents a quart to 20 cents and an advance to 22 cents will be made before the tourist season opens. Two months ago the price was 16 cents.

## IN THE CIRCUIT COURT OF THE FIFTEENTH JUDICIAL DISTRICT OF FLORIDA IN AND FOR PALM BEACH COUNTY

IN CHANCERY  
ELLEN WYNNE, by her next friend and father, J. J. Silva, complainant.

vs.  
WILLIAM E. WYNNE, Defendant.

BILL FOR DIVORCE.  
It appearing by affidavit appended to the bill of complaint filed in the above styled cause William E. Wynne, the defendant, is a non-resident of the state of Florida, and is a resident of 428 Sheridan Ave., S. Minneapolis, Minnesota, that there is no person in the state of Florida, the service of subpoena that would bind said defendant; that he is over the age of twenty-one years; it is therefore ordered that the non-resident defendant be and appear to the bill of complaint on or before Monday, the 7th day of September, A. D. 1925, otherwise the allegations of said bill will be taken as confessed.

It is further ordered that this order be published once a week for four consecutive weeks in The Everglades News, a newspaper published in said county and state.

This 27th day of July, A. D. 1925.

FRED E. FENNO, Clerk of Circuit Court.

By Merle F. Johnston, Deputy Clerk (Circuit Court Seal).

H. Getzen, Solicitor for Complainant.

July 31, August 1, 14, 21, 28, 1925.

## NOTICE OF APPLICATION FOR TAX DEED

## FARM TALK

By Howard Sharp.

George Galloway has in a good crop of pole beans on section 5, fronting on Pelican Bay, south of Pahokee. He understands that beans are selling at \$6 a hamper in Miami. Mr. Galloway has lived on the lake a long time, fishing and farming, and he believes that the prevalence of grasshoppers is a sign that a period of dry years is coming, dry years having followed a plague of grasshoppers several years ago. O. E. Griffin also thinks this may be the case, dry weather having followed grasshoppers in the northern part of the state.

Grasshoppers have eaten some beans south of Pelican Bay, caused some loss. Arsenate of lead has been used to poison them but does not seem to have been very effective. Truckers say this is the only poison that can be used against pests without hurting the vegetation.

At Belle Glade last week one of the Crech brothers had his seed beds to keep down the insects and it is my recollection he said the spraying was done in the evening—probably to keep the plants from being burned by the sun after the application. On E. L. Wouders' place south of Canal Point cheese cloth is spread over the seed beds, boards first being placed on edge in the ground and the cloth fastened to it to keep the insects out.

Stuart Strand, who has a farm a few miles north of Canal Point, says his Pollock avocados have fruited well. The trees were set about 12 years ago. There are a good many trees of an avocado tree at the spillway. Not as much attention is given to avocado trees on East Beach as at South Bay.

When some avocado trees were moved in the Pioneer Investment Company subdivision on the north side of the canal at Canal Point the roots and limbs were trimmed rather closely, so closely that an observer thought surely the trees would be killed. Persons who profess to know say the trees will make further progress than trees that were not disturbed.

Has anyone any idea of why there are more maple trees between Canal Point and St. Lucie canal than between Pahokee and Hillsboro canal? My idea is that the maple trees got established at one point and not at the other because the strip of water is thinner north of Canal Point—that is, it is closer to the high land of the flatwoods from which the maples spread, just as the myrtle spreads in the sawgrass area from the flatwoods on the east. But is there a better reason?

Some of the comment on East Beach is that there will not be much land farmed a good distance from Canal Point and Pahokee because so many of the farmers have gone to the east coast to sell real estate. My idea is that the truckers will begin evicting the east coast towns when the tourists begin to come in and the rents go up. What with paying for water and gas and lights as well as paying rent, it costs a good deal to maintain a house in West Palm Beach in the tourist season. It's a lot cheaper to live on East Beach even if you do have to use coal oil and carry water from the lake.

## Explaining Rain's "Odor"

Rain has no odor, but falling particles the air. Often rain is produced by electrical charges in the air, and these charges produce a gas called ozone, which has a delightful fresh odor.

## NOTICE OF APPLICATION FOR TAX DEED

Under Section 777 of the Revised General Statutes of Florida. Notice is hereby given that L. H. Johnson, purchaser of Tax Certificate No. 240, dated the 5th day of August, A. ## NORTHMORE

Northmore is a continuation of Northwood Hills, and of the elevation to the north. Northmore has been most elaborately planned. The avenues and drives are 60 feet in width. All of the lots are properly restricted to make this a high classed and extremely desirable residential section. Two rows of business lots have been laid out, lying on the east and west side of Greenwood Street. All improvements are to be put in by the sellers: rock streets and cement curbs, 5-foot sidewalks, water and electric lights. Every section of Northmore has been properly, thoroughly and uniformly restricted, and promises to develop and build up even more rapidly than the other sections of Northwood. Many buyers who were unable to secure elevated lots on the ridge when Northwood Hills was placed on the market now have an opportunity to secure one of the choicest dwelling places in the city. Many of these lots have an elevation that permits a view of the ocean, standing on the lots. They are swept with cool breezes. The Ridge Sections of West Palm Beach will soon become as popular as demand for lake front lots.

## VALTZ IS BUYER OF STATE LAND

Represents New Realty Co., Atlantic National, Jacksonville

Sale at Tallahassee of section 31, township 42, range 37, located five miles south of Pahokee on Pelican Bay by the trustees of the Internal Improvement Fund at \$200 an acre was reported July 28 in an Associated Press dispatch. The name of the buyer of the section was not given.

Sale at Tallahassee of the west half of section 29, township 43, range 37, by the trustees at \$175 an acre was reported in the same dispatch, the name of the buyer not being given, although the names of other buyers were given.

The Everglades News requested the Capital News Service at Tallahassee to ascertain from the records who the buyer of section 31 and the half of section 29 is, as the identity of the owners of land subject to taxation is a matter of interest to residents of the state.

The following reply has been received: "Tallahassee, Fla., Aug. 10, 1925. The Everglades News, Canal Point, Fla. "Files in land office of the Department of Agriculture show prices on lands in question as quoted in article. Buyer of both properties in New Realty Company, Atlantic National Bank, Jacksonville, Fred W. Valtz, president."

A news agency dispatch from Tallahassee under date of July 22 had reported, a week earlier, that Fred M. Valtz, representing the New Realty Company of Jacksonville, had bought four tracts aggregating 656 acres located "on Lake Okechobee, Chosen and Bayport." Bayport is not shown on the Fugate or Carr & McFadden maps or the chief engineer's map of Everglades drainage district. If notice was given by publication of the proposed sale of the lands here referred to, The Everglades News has not found anyone in this locality who saw the notice. No doubt publication was made in some paper in Palm Beach county. There was not such notice, however, that persons residing in the territory of the land could present bid. The Everglades News will print without charge to the trustees any notice of sales of lands in Everglades drainage district.

### WEST PALM BEACH

Ten thousand drivers' permits have been issued from the city clerk's office. Compelled to do their work promptly if they take contracts for public works, contractors have brought 2,000 negro laborers into the city, proving that public work can be handled promptly if public officials insist on it.

Three hundred and sixty-four marriage licenses were issued from January 1 to August 1, and only 100 suits for divorce were filed in the same period. Divorces had been running marriages a closer race.

Red head lights and red tail lights on all vehicles were recommended by the Lions Club, of which Commissioner W. J. Bedell is a member. Sentiment throughout the city seems now to favor the idea. A few years ago City Manager Karl Riddle made the same proposal, but it was rejected. Times change and manners change with them, as the Latin quotation has it.

Another Florida East Coast railroad train conductor has been arrested because he blocked a crossing. Great resentment against the railroad company is felt, chiefly because blocked crossings may prevent the fire department from reaching houses on fire.

The bid of W. H. White & Son, Breeding Company of \$125 a yard for reclamation work on the inlet has been accepted. Blasting in the channel is under way and scows and dump barges have been ordered.

The salary of Dr. W. E. Van Landingham, city physician, has been increased from \$1,800 to \$3,500 to compensate him for making physical examinations of persons who handle food-stuffs. The examinations are compulsory.

### CLEWISTON

CLEWISTON, Fla., Aug. 11.—J. G. Allhands of Peoria, Ill., arrived this week to join the local force of Harman-Elliott Engineering Company, engineers for Sugarland and Clewiston drainage districts. He is an accountant.

The engineering office having been moved to a building erected specially for it, J. W. Myers has occupied the vacated building, thus maintaining the office of Sugarland drainage district, of which he is one of the supervisors.

The business of the Bank of Clewiston has improved considerably in recent weeks and Cashier E. L. Stewart now finds his time fully occupied. He is also and has made several resales of Clewiston lots.

Ross Winnie was over from Torrey Island Tuesday. Miss Katie Peterson and Miss Matson of Homestead visited at his house last week and when they returned home Mrs. Winnie and daughters accompanied them to Homestead. This left Ross and the boys alone.

Because Captain Ed E. Forbes was moving from one house in South Bay to another in the same town, Ivan Van Horn brought in the May E. Tuesday. Four car loads of lumber are to be moved from Clewiston to South Bay this week for the Franz Mercantile Company, which operates a well-stocked lumber yard at South Bay.

Traffic between Clewiston and both the east coast and the west coast is heavy. Trains, buses and boats handle as many passengers as used to be handled through Moore Haven at the height of the winter season.

### GLADES WEATHER

Record of meteorological observations taken by the undersigned as a cooperative observer of the Weather Bureau of the U. S. Department of Agriculture during the week ending August 9, 1925.

Sunshine 83 hours, 30 minutes.

Total rain since January 1, 1925, 42.4 inches.

Gauge above lock, 183 feet; below, 166 feet. Gauge read 7 a. m. August 10, 1925.

C. P. SHEFFIELD.

Opinion Revised

Before noon a night is hopeful of accomplishing something by night. After noon he ridicules his hopes for use next day.

City Problems

It is all right to preserve wild life in the forests, but what to do with it in the cities is a problem. New Orleans Times-Picayune.

INFORMATION

ABOUT THIS NEWSPAPER

This paper is on sale at the following places:

West Palm Beach: Gagliardi's News.

Fort Pierce: News and South Shop.

Moore Haven: Westgard's Drug Store.

Pahokee: A. Kallenbrunn's Store.

Canal Point: Post Office News Stand.

Okeechobee: Park Pharmacy.

Subscription Price: \$2.00 a year. Add 20 cents if to be mailed to foreign countries.

Advertising Rate: 40 cents per inch per insertion. Local readers, 10 cents per word. Want Ads, 1 cent a word.

News: Readers are invited to send in items about residents of the Lake Okeechobee region or matters concerning the drainage district.

Contributors are wanted in all communities in the Lake region.

### BELLE GLADE

BELLE GLADE, Aug. 10.—J. L. Robinson has sold 70 acres of his farm lying one and a quarter miles east of Belle Glade, to a party from Alabama, the reported price being \$200 per acre. Mr. and Mrs. Robinson will not leave here, but expect to buy a smaller place and build a modern home here.

H. T. Holloway reports that he will build himself an office here and make this his headquarters, as the Holloway & Bryan dredges are under the tracts for work which will keep them in this vicinity for the next two years.

Mr. and Mrs. LeLaure have moved here from South Bay. Their son, George, is employed at the Brown Company's farms, as are also Messrs. Brock and Walker, who have also moved their families here.

The Brown Company, by that way, has adopted the name of Shawano for the farm and has applied for postal service but in the meantime will continue to make this the address and headquarters.

Two brothers named Greer, connected with one of the dredges, have moved their families into the Allen Greer house. Mr. and Mrs. Anton Mahue having taken the C. E. Robbins house instead.

The telephone company is again working on this end of the line, and are now in the vicinity of South Bay.

S. D. Kennedy, who went to Miami several weeks ago, is with the Florida Greer house, the Stable Exchange in West Palm Beach now. He was out Sunday and reports that he will probably be back in about four weeks to commence farming.

The surveyors on the cross state highway have moved in and begun work between here and South Bay. Just how much encouragement there is in this we do not know.

The Bible Class held a very interesting meeting at the school house Sunday afternoon. A good sized audience was present, a number coming over from Chosen and vicinity.

The shortage of colored help is quite serious at present.

### OKEELANTA

Since the last contribution of Okeelanta items the following is to be chronicled: The return of Captain Daniels from Miami to resume charge of the dredge Florida and John Anjima's going back to his job as oiler. The dredge is working only a few miles south of our town. The recent opening of the lock let acres of hyacinths float down behind the dredge. It will be the beginning of another year before the North New River canal is cleared of the hyacinths. No transportation to Fort Lauderdale is in prospect for many months.

Messrs. Noel and Bennett from Miami were guests at the hotel while inspecting the Spitzer place, which Mr. Noel acquired some time ago.

Mr. and Mrs. Huck and Dave Hetherington, former residents and still owners of homes here, were over from Geerworth Saturday looking over conditions. They found little to encourage them.

A few alligators have made their appearance of late in our vicinity. Their familiar forms and faces remind us of olden days, and more hopeful days.

An 8-footer tried for a chicken dinner last Sunday.

The water stands two inches deep on surface, but our state officials must not make nature the pook-horse for this condition. Their sins of omission and commission are too glaring.

The only crops promising returns are water cress or frogs.

The postmaster, S. R. Cooper, who was called away by a phone message last Friday, was back in his office on Sunday.

One of the Geersers from Belle Glade brought over a party of three interested in lands in this neighborhood. During the short stay they visited at Mothers' Laughs.

### LAKE OKEECHOBEE

Okeechobee, big blue water: Heaven to the dreamy dandy of the Everglades.

What a blessing job can be, calm and beautiful to see. Such a joy to son or me, or an alligator.

Okeechobee, Okeechobee.

Singing forth the golden story.

That you make and see the glory of the Everglades.

—Lella Balen

### LETTERS FROM READERS

R. J. Simonson, who owns land on East Beach, writes from Litchfield, Ill., under date of August 5: "Please date my paper ahead another year. I may have it changed to Pahokee before the winter is over. Couldn't you get up an article about the growing of rubber trees in your locality? I know the kind of rubber trees near the lake grow very fast on the muck."

William G. Irwin writes: "I have been asked to get some of the way views of the Everglades for the rotogravure section of 'Sportlife,' a special Florida number to be issued in the fall, and am also furnishing some articles for the issue. In case you or any of your readers have anything of the kind that can be sent to me the pictures should be addressed to me at box 298, Pittsboro, Pa."

Editor, The Everglades News: Please allow me space in your valuable paper to tell the public something about my trip to Georgia.

First of all, South Georgia has had but a very light rainfall since February and is yet very dry. The crops of corn, cotton and tobacco seemed to be very good. There was but little sign of boll weevil until about the 20th of July. About that time they started out seemingly with double force and working overtime. It was a little strange they were doing their greatest work on the oldest cotton in this year.

I attended one tobacco sale which was the first one this year at Vidalia. They sold the first and second curing; the first they call sand, which is the poorest grade. The farmers were well pleased at the price the tobacco brought them, the average price being above 20 cents.

I got home just in time for the revival meeting at my old home church. The pastor had not secured a helper so they pressed me in. I preached the music and preaching on the Sunday after I got home and continued two services each day until the next Sunday, when the meeting came to a close. I had nine new members and the

whole community revived. The congregation was the largest I have ever seen at Penhoke church. The house, 35x50 feet, was crowded at every service. I have spent all my ministerial life pastoring churches in the community where I was raised, but somehow my heart longed for a new field and I came to Florida. It may be that I made a mistake as I have not accomplished the desire of my heart but still hope and pray that my coming is not in vain. Yours cordially,

E. L. WILLIAMSON.

### A GAME TO PLAY

#### SEAT RELAY

Divide the players into two equal groups. Each group gets chairs and arranges them in an even line, far enough apart so that there is room to run around each line without interfering with the other. At the starting signal, the leader quickly passes a bean bag to his neighbor and so on to the end of the line. As soon as the last player gets it,

he jumps up and runs to the other end of the line. The players all shift one place to make room for him in the leader's chair. As soon as he sits down he passes the bag down the line again. The game continues in this manner, the whole line being ready to shift as soon as the bag reaches the end player, until the leader is back in his original place. This ends the game, the first line through being the winner.
